The New York State Grown & Certified program makes it easy for consumers to identify local and environmentally responsible agricultural products. This voluntary program is a cooperative effort among producers, processors, wholesalers, retailers, restaurants, and the New York State Department of Agriculture and Markets to meet consumer demand for high-quality food and agricultural products.

Christmas tree growers are eligible to participate in New York State Grown & Certified if they operate in an environmentally responsible manner as described in the Program Requirements. Upon acceptance to the New York State Grown & Certified program and submission of a signed trademark licensing agreement, program participants will be able to display a new high-impact label that will clearly stand out and tell the consuming public and they operate their businesses in an environmentally responsible manner.

PROGRAM REQUIREMENTS

- **Applicability:** Products marketed under the New York State Grown & Certified seal are grown in New York State;
- **Environmental Stewardship:** Participation in the New York State Agricultural Environmental Management (AEM) program, administered by the Department of Agriculture and Markets, with the completion of Tier 2 of the program (or higher) within three years of admission into the New York State Grown & Certified program.
